

# Hi, meet Solis

## Welcome to GETUS Communications, your Coast to Coast Internet Service Provider

Congratulations on receiving your new Solis Device, we're excited to get you activated and welcome you to the family.

**Once you receive your new Solis device** simply hold the power button for upto. 5 seconds. Plug the device into power and allow upto. 10 minutes. The device will automatically download and install the latest firmware.

**Connect to the Wireless on your favourite device** with the details found on the bottom of the device WiFi Name ie. #Skyroam\_ and password. You will locate the WiFi name on your favourite device and connect with the details.

**Open your Internet Browser**, Visit [a.skyroam.com](http://a.skyroam.com) (when connected to the device on Wireless), no username or password should be required if connected. You're now viewing the statistics of the device, from battery life, data usage and your internet subscription.

**Unlimited once Online.** Activate your passes and utilize unlimited internet while you travel (or at home). To purchase passes, visit the GETUS website, select "Rocket-Fast Solis" menu option, order as many passes as you wish, checkout and they will appear within 30-90 minutes on your Solis device. *Remember. Passes do not expire, 24 hour timer begins once activated per 24 hour pass. For urgent pass requests, please call our Customer service team.*

Refer your friends and family, earn \$25 per referral (that's two travel passes). Happy Travels!

Confidential - intended eyes only
