

GETUS Home Internet Installation Guide

Last Updated: May 2022

In this guide, we will guide you through setting up your **GETUS Internet** Services in just 7 easy steps!

If you encounter any questions, please reach out to us, we're **happy to help.**

1.

Confirm you have all of the hardware required:

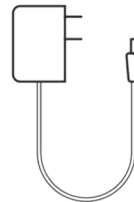

Vilo Router
Power Adapter
Ethernet Cable
GETUS Modem
Mobile Device

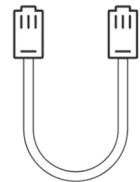

Any Vilo

Modem

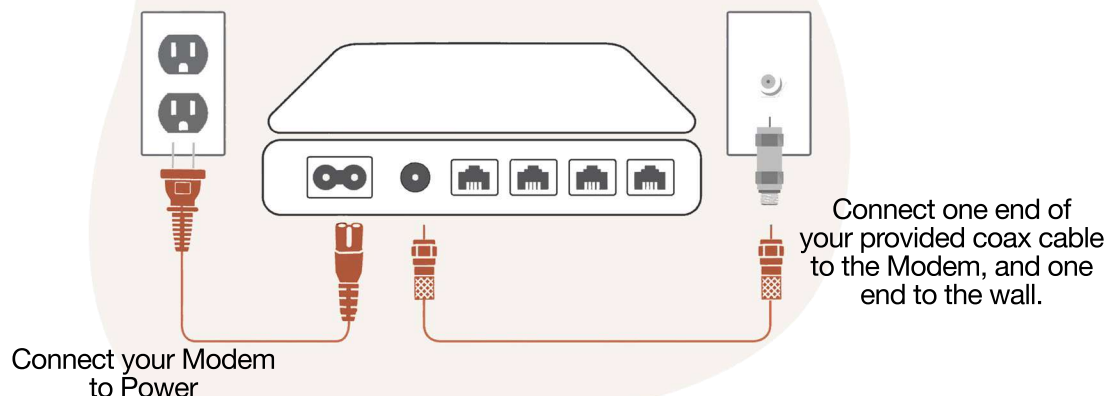

Power Adapter

Ethernet Cable

2.

Connect your Modem to power and the coaxial wall outlet.

3.

Download the Vilo app and create an account!

Download
On:

Apple
App Store

Google
Play Store

New to Vilo?
Make sure you select
"Sign Up" to
create an account!

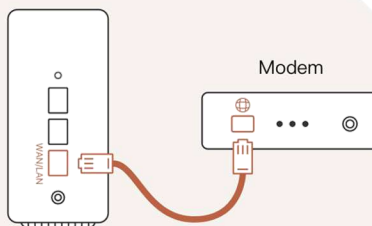

4.

Connect your Vilo to power and your GETUS modem.

Power

Modem

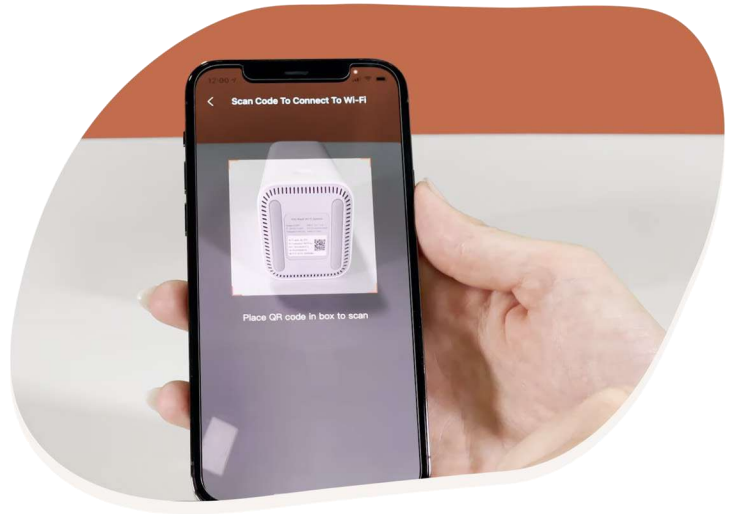

Plug one end of the Ethernet cable into the WAN port of the Vilo and the other end into your modem.

5.

For Apple Devices:

Scan the unique QR Code on the bottom of your device with the Vilo App to connect automatically!

5.

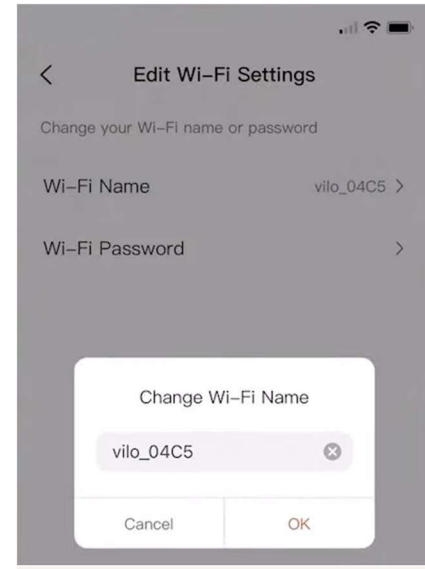

For Android Devices:

Choose "Manually Connect to Wifi" and select your Vilo device from the drop down list.

Then, enter the password found at the bottom of your Vilo device!

6. **Once connected,** you may customize your network name and password!

7. **Optional:** Add additional Vilo devices to your space and create a wifi mesh network!
